

ML 402

GENERAL SERVICE PACKING

FEATURES:

Non-asbestos fibers treated with a specially formulated blend of lubricants having a saxoline base.

CONSTRUCTION

Multi-Lok Braid

TREATMENT

Each strand is individually coated with graphite and the braid is surface coated with graphite.

RECOMMENDED FOR:

Mild acids, alkalies, steam, brine, oil.

SERVICE CONDITIONS

Shaft speeds to 1885 FPM; temperatures to 450°F/232°C; pH range 4-10.

EQUIPMENT

General service on rotary and reciprocating equipment.

REMARKS

Good general service packing. The lubrication formulation makes the extra difference. The ductile nature of the lubricant prevents wicking and provides superior sealability.

Style 402 - Same as ML402 except square braided.
